### About this product:

Turns Stretch Film-Bio (in presence of oxygen) into a material which is biodegradable, hence the oxo-biodegradable stretch film.

- Uses oxo-biodegradable additive, d2w additive from Symphony – tested, approved, & used in many countries
- Meets current standards for biodegradability & non eco-toxicity

### Key Features:

- Recyclable – d2w can be recycled like regular stretch film
- Low cost, drop-in technology with no disruption to supply chain
- Environmentally conscious solution at a reasonable price**

*Our Stretch Film are available in custom sizes, colors, & thicknesses. By request ONLY. Minimum order quantity applies.*

*Please consult your Wrap Tite Representative for further inquiries.*
