

Product Data Sheet

Vented Machine Stretch Wrap

Effective 12/2018

Product Description:

Vented stretch film is a high extensible film bonded to longitudinal strips with reinforced edges. It is superficially punctured in in predetermined zones. It eliminates condensation by giving the product the ability to breathe. It is perfect for products that need the ability to breathe while being shipped or stored such as, refrigerated or frozen products, flowers, fruits, vegetables and products that are warm.
